THE TWO BIG PRIZES

They Fall to James R. Wood and Miss Mattie M. Boals.

WORTH \$40,000 EACH

They Will Undoubtedly Take Quarter Sections Adjoining the Town-site of Lawton—Some of the Lucky Ones.

El Reno, O. T., July 29.—The placing of envelopes in wheels proved slow work and the actual drawing was delayed over two hours this morning. The first envelope taken from the wheels contained the name of James R. Wood of Weatherford, O. T., who had registered for homestead in the Lawton district. Miss Mattie M. Boals of Wichita, Kas., drew number two also in the Lawton district. Without doubt Mr. Wood and Miss Boals, who thus have the right to make the first filings will select two quarter sections adjoining the Lawton townsite district which are believed to be worth \$40,000 each. When Colonel Dyer the commissioner, announced the woman's age as 23 and her height the same as that of Wood, 20,000 persons shouted in chorus: "They must get married."

Number one, in El Reno district is Stephen A. Holcomb of Paul's Valley, I. T.; number two, Leonard Lamb, of Augusta, O. T.; number three, Frank Brown, of El Reno, and number four, was Calvin Churchill of Chickasha.

MANNER OF DRAWING.

Envelopes Placed in Receptacles and Drawn Out Before Public.

El Reno, O. T., July 29.—All was expectancy Sunday night among the thousands of homeseekers here over the grand lottery that began this morning. There are 13,900 claims to be distributed, and so each of the 165,865 persons who have registered during the past 15 days has about one chance in 13 of winning. While the great excitement of the "run" which has heretofore been a part of land openings in this part of the country is lacking, the last act in the throwing open to settlement of the Kiowa-Comanche reservation will not be without life and animation.

The drawing took place in the center of the city on a large platform in the open air. W. A. Richards, assistant commissioner of the general land office, who has had charge of the registration; D. P. Dyer, of St. Louis, former United States district attorney, and Frank Dale ex-chief justice of Oklahoma, conducted the drawing.

The actual drawing was novel and interesting. On the platform was two oblong box wheels, each 15 feet in length, one to hold the names of the applicants for homesteads in the El Reno district and the other for those of the Lawton district. Into these wheels were placed envelopes containing the names of all the registered applicants. The envelopes were first brought to the platform in packages consecutively numbered. A corresponding series of numbers, upon slips, were placed in another receptacle from which they were drawn out at random. The package of envelopes bearing the first number drawn was the first to be placed in the drawing box and well distributed, when another number drawn and another package of envelopes distributed, and this course continued until all of the envelopes were placed in the box wheels, after which the wheels were revolved for a sufficient length of time to insure a thorough mixing of the envelopes.

In each wheel there are five apertures from which the envelopes were finally to be drawn. Ten men, one for each aperture, performed the actual drawing. The order in which it began was determined by lot. The first envelope drawn was No. 1, which was at once opened and the identification slip which it contained was given a corresponding number, and the name and residence which appears upon the slip was publicly announced. This course was pursued, numbering each envelope and its contents consecutively, until 25 numbers were drawn from one box, when an equal number was drawn from the other box in a similar manner.

After the names were drawn and announced they were recorded and a notice prepared to be mailed to the one whose name is drawn. The drawing will proceed in this manner until every envelope in the boxes is drawn out.

Only 1000 envelopes, 500 for each district, will be drawn today. After today the drawing will proceed with greater rapidity and it is expected that the last envelope will have been drawn by Thursday night. The lucky ones will be permitted to file their

claims in the order that their numbers have been drawn from the wheel. All applicants for homesteads have been permitted to inspect the land beforehand to select a claim in case he should be lucky enough to draw a number.

Three Persons Drowned.

Tacoma, July 29.—Earl Jenkins of Seattle, Miss Florence Nevins and Miss Anolia Cole of Puyallup, were drowned by the capsizing of a row boat on Spanaway lake. The bodies were recovered several hours after the accident.

FOUND HIS DAUGHTER.

George Edmunds Discovers His Child After Nine Years' Absence.

Wilkesbarre, Pa., July 29.—George T. Edmunds of Plymouth has located his daughter, Sadie, who nine years ago, then 18, disappeared from her home in Alpena, Mich. It was thought she had been drowned or murdered by a jealous lover. Two weeks after her disappearance her mother died from grief. One month later her sweetheart died from the same cause.

Her father was so affected that he left town and moved to Plymouth. There he started in business anew, but brooded over the mystery. Two weeks ago the daughter, while at Thousand Island, read in a Wilkesbarre paper of an accident to a man of her father's name. She employed a detective who investigated and acquainted the father of the daughter's whereabouts. A happy visit followed. The daughter at the time of her disappearance married a man now living in New Orleans, La. She is Mrs. Lawrence Price.

BACK IN COLOMBIA.

Venezuelan Revolutionary General Making His Way to His Troops.

New York, July 29.—General Uribe is back in Colombia and is now believed to be making his way into the interior from the Venezuelan border. He sailed from New York on the Red Line steamer Caracas on June 15, reaching La Guayra June 23. He remained in La Guayra only a few hours and then took the steamer Merida for Caracas. From Caracas he sailed for Maracaibo, Venezuela, where he arrived June 27. He continued his journey on the steamer Mara, which took him to the other side of Lake Maracaibo.

Of the 30,000 who fought with Uribe in the revolution only two guerrilla bands are holding out against the government—one in the department of Tolima and the other on the Isthmus of Panama.

The Colombian government has been kept advised of Uribe's movements and it is doubtful if he will succeed in raising many followers before he is captured or driven out of the country.

Killed by a Ranchman.

Trinidad, Col., July 29.—Phil McWilliams, a ranchman living a few miles below town, shot and killed Salvador Parece and his son Charles Parece. In the fight that occurred at least a dozen or more shots were exchanged, the Pareces shooting McWilliams horse from under him. The shooting is the outcome of an old feud.

Boers in Cape Colony.

Cape Town, July 29.—The Boers are scattered throughout the upper districts of Cape Colony. Some are within a few miles of Indwe, others are around Jamestown and between Molteno and Burgersdorp. Several parties are close to Craddock.

Czar Getting Better.

Berlin, July 29.—The czar has been rapidly taking on flesh since his illness, though he is still very pale. His doctors have ordered him to take more exercise, and he has put in his bedroom a rowing machine, at which he sits for half an hour every morning.

Socha Must Hang.

Austin, July 29.—The governor has declined to interfere in the case of Juan Rocha, a Mexican, who murdered John Grimsinger at San Antonio. The petition was for commutation of sentence to life imprisonment. Rocha is to hang Aug. 2.

Empress Frederick Worse.

Cromberg, July 29.—As a result of the visit of Prof. Reubens from Berlin, it is officially announced that the condition of Dowager Empress Frederick is not satisfactory.

MANILA NOTES.

Major Allen Has Been Chosen Chief of
the Insular Constabulary.

Manila, July 29.—Major Henry Allen,
of the Forty-third volunteers, who was
sometime since appointed governor of
the Island of Leyte, has been chosen
chief insular constabulary and will pro-
ceed with the organization of that force.

Captain Spellman of the Forty-third
has been sentenced to two years in pris-
on for encouraging trading at open
ports.

General Chaffee has issued an order
that troops shall wear coats buttoned
everywhere outside of the barracks. The
order dispenses with the use of flannel
shirts, which have heretofore been cus-
tomary outer garment. The officers are
ordered to wear khaki for all duty and
swords always when actively command-
ing. White or dress suits are permit-
ted on social occasions. Upon visiting
the posts unexpectedly General Chaffee
found an astonishing variety in uni-
forms and a great laxness regarding the
clothing of troops.

Two native policemen have been killed
in the suburbs of Cebu. Firing upon
the town continues. Provost Davis is
conducting an investigation.

Detectives employed in investigating
the Santa Cruz robbery have found no
definite clew, nor have they learned the
amount the thieves secured. It appears
that the sergeant of the guard was in-
toxicated and one sentry detailed to
guard the five entrances to the guard
house.

General Martin Delgado, governor of
the island of Panay, has asked for aid
in consequence of the ravages of the lo-
custs and rinderpest.

tinues.

Investigation is proceeding in the case
of Lieutenant McCarthy of the Thirty-
fifth regiment because of the loss of
\$1000 of public money while being con-
veyed from Appari to Manila.

Decision on Woman's Rights.

Denver, July 29.—In the county court
here Judge Lindsay gave an opinion to
the effect that Judge Palmer erred in
enjoining the police department from
inforcing the city ordinance excluding
women from saloons. Judge Lindsay
held that it is not the constitutional
privilege of women to drink at public
bars and that the city ordinance prohib-
iting such drinking is no infringement
on their constitutional liberties. The
fine of \$20 and costs imposed by the
police court upon Daniel Cronin for keep-
ing a winerom in violation of the city
ordinance was doubled.

Howell's Island Cut Away.

Liberty, Mo., July 29.—A few years
ago the Missouri river changed its main
channel from the Jackson county shore
to the Clay county side at Howell's is-
land, but left the island connected by a
large sandbar with the Jackson county
bank. Now the river has gone back to
its former bed and in doing so has al-
most cut away the entire island, instead
of going around. Howell's island is
three miles below Missouri City and
was one of the largest in the Missouri
river. It contained more than 1000
acres of rich corn land.

Reward for Bandit Doubled.

Havana, July 29.—The government
has offered a reward of \$1000 for the
capture, dead or alive, of Lino Lima, a
bandit, who has been operating in the
Matanzas and Havana provinces. There
had been for the last three months a
standing reward of \$500 for Lima's head.
Friday the bandit sent word to the au-
thorities that he would surrender \$500,
provided he were allowed to leave the
island. Upon receipt of this offer the
authorities doubled the reward and sent
urgent instructions to General Rodrigue-
z of the rural guards to capture Lima.

May Displace Kitchener.

London, July 29.—It is rumored here
that General Lyttleton will succeed
Kitchener as commander-in-chief of the
British forces in South Africa. General
Kitchener, it may be assumed, will not
be recalled until the end of the war. It
will be Lyttleton's task to be more pas-
sive and administrative than belligerent.
The man to whom is really confined the
task of solving the final problem is
Lord Milner and he is well aware of
the difficulty of the task that awaits
him on his return to South Africa.

Preparing to Stay.

London, July 29.—A Shanghai corre-
spondent of The Globe says, assurances
were given in the house of commons on
July 23 by Lord Cranbone, the under for-
eign secretary, that the French and
German troops, only temporarily here,
are refuted by the fact that the national-
ities were erecting massive permanent
barracks, which will take two years to
complete, indicating that many years
of occupation are contemplated.

Thrashing Engine Exploded.

Weatherford, O. T., July 29.—A tele-
phone message from Seger, a small
place 15 miles south, says a boiler be-
longing to thrashing crew, burst near
there killing three men and injuring
four more, two of them probably seri-
ously. The dead are: John W. Peters,
Alfred White, and Caleb Jones. The
explosion is said to have been caused by
failure of the engineer to supply suffi-
cient water.

Cannot Express Opinions.

Washington, July 29.—Secretary Long
has issued a general order that all per-
sons in the naval service are strictly en-
joined to refrain from any public state-
ment concerning the subject matter of
the court of inquiry, requested by Rear
Admiral W. S. Schley.

ATTEMPT TO ESCAPE.

Doomed Negro Killed After He Escaped
from His Cell.

Monticello, Fla., July 29.—Simon
Williams, condemned to death for the
murder of Deputy Sheriff Hawkins and
sentenced to hang Aug. 8, made a dash
for liberty Sunday afternoon. After a
desperate fight, in which Deputy Sher-
iff Kilpatrick was badly wounded, the
negro fled, but was shot to death.

Deputy Sheriff R. H. Kilpatrick, with
a trusty, had gone to the death cell to
give Williams his dinner. Williams,
who had recently removed the shackles
from his ankles with a cold chisel fur-
nished by unknown means, dashed out
upon the officer, seized his pistol and
ordered him to get into the cage. The
officer, upon the murderer and a
fight ensued, in which the officer was
shot. He fell down a stairway and ran
into the yard, where the deputy took
the pistol from the negro. Williams
ran to the gate of the stockade, but
could not get out. He then turned up-
on the deputy with a club, but was shot
in the chest. Williams, notwithstanding
his wounds, ran to another gate,
which was open and dashed into the
street. The deputy followed, shooting.
After a chase of 100 yards Williams fell
dead. Officer Kilpatrick's wound is in
the groin. His condition is critical.

Tornado in North Dakota.

Fargo, July 29.—A heavy rain and
wind storm prevailed Sunday afternoon
over a good part of the state and the
greatest damage is reported at Tappen
where it amounted to a tornado. A
church, a store and some dwellings and
barns were blown down and the North-
ern Pacific depot unroofed. Crops in
the path of the storm were ruined.

Helping Corn in Nebraska.

Lincoln, July 29.—Reports from over
the state show that the rains that visit-
ed Nebraska Saturday night and Sunday
left the corn in many localities in bet-
ter condition than at first thought. The
fall of rain ranged from half an inch to
three inches. This, while not of much
help to the hay crop, will make good
fodder in all cornfields and in many
places will make from one-third to a
full crop of corn. In some localities,
however, there will be no corn.

Boys' Quarrel Terminates Seriously.

Memphis, July 29.—Edwin Blalack,
dead with a Winchester rifle ball in his
brain; M. F. Blalack, leg broken by a
bullet; Robert Wright, Sr., leg broken
by a bullet and Robert Wright, Jr., a
fugitive from justice, is the result of a
desperate duel with Winchester rifle-
which occurred Sunday about dusk on
Norris avenue, near Forrest Hill cem-
etery. The tragedy grew out of a dis-
pute between Robert Wright, Jr., and
Edwin Blalack. The fathers backed
the boys up and the two families lined
up with rifles on neutral ground.

Kansas Drouth Broken.

Atchison, July 29.—The drouth in
northern Kansas which has lasted with-
out interruption since April 15 was
broken Saturday night. The Missouri
Pacific railway has received reports
from all the stations which extend 300
miles westward from the Missouri river
and northward into Nebraska and all
except two or three report a downpour
of from a fourth of an inch to two
inches. The rain lasted in most places
for three or four hours.

Rich Find of Copper.

Guthrie, O. T., July 29.—A report
from the copper district in northwest
Beaver county, tells of the discovery in
Long's canyon of a vein of very rich
copper, 18 inches thick, and of other
finds of less richness. The smelter at
Canizo started Thursday and the mines
will all be worked now, as heretofore it
was necessary to freight all ore 115
miles to railway and then ship to the
smelters.

Sack of Silver Missing.

Chicago, July 29.—A sack of 1000 sil-
ver dollars has mysteriously disappeared
from the Commercial National bank,
and although several detectives have
been put on the case their efforts so far
have been futile. The package, which
weighed about 60 pounds, was left out-
side of the vault by mistake when the
bank closed Saturday night and since
then no trace of it can be found.

Death of an Inventor.

Louisville, July 29.—W. H. Johnson,
who is said to have invented the switch-
board used in an improved form by the
Western Union Telegraph company
while he was employed in the manu-
facturing department of that company
in Cleveland in 1855, died here of apo-
plexy.

Woman's Eyes Burned Out.

Muncie, Ind., July 29.—Peter Tillbury
an iron worker, threw carbolic acid into
the face of Mrs. Mary Torrey here,
burning out the woman's eyes and burn-
ing her neck, breast and arms fright-
fully. The man had pleaded with the
woman to marry him for years.

Burned to Death.

Louisville, July 29.—In the fire which
destroyed property of Badgley-Graham
Photographic Supply company, Max
Belivitch, a cigarmaker, and Policeman
James Purden were burned to death in
an effort to rescue women and children
who occupied rooms above the store.

Rear Admiral Dead.

Washington, July 28.—Rear Admiral
John Irwin, retired, died at his resi-
dence Sunday night after an illness of
several months, due to a complication
of diseases. He was 69 years old. He
entered the naval academy in 1847 and
had a good war record.

Some Boers Captured.

Pretoria, July 29.—Colonel Garrett
has had a successful skirmish near Ve-
reigning. His force captured 25 Boers
and a number of cattle and wagons.

latives here, Mr. and Mrs. Middleton
returned to Madisonville Monday.

Rev. J. P. Skinner was called
from Alexander Sunday night to
perform the burial service of little
Clyde Pool, at the Wheat cemetery
Monday morning July 22nd.

Death entered the home of Mr.
and Mrs. Tom Poole, Sunday
morning, and claimed for its own,
their infant son Clyde. All that
loving hands could do, was done
for him, but the Lord took him to
that place where no sickness ever
comes. Clyde was a very interest-
ing and lovable child. He won
the love of all by his affectionate
and attractive ways. Dear parents
your Clyde was only lent to you
for a while, but he has gone to live
with the angels; may God bind up
your broken hearts with his love,
and give you strength to stand this
great loss. May the blessings of
God be upon the bereaved parents
and bring them safely home at
last. Cor.

The M. and P. Bank has sold a half interest in the Bryan Cotton Seed Oil Mill to parties at Waxahachie and other North Texas points. Mr. R. J. Patterson of Waxahachie, who is a member of the new company, and an experienced oil mill and gin man, arrived yesterday to take charge of the entire oil mill and mammoth gin. Both are now being put in thorough repair and most of the former employees will be retained by the new management. The mill and gin will be able to handle all the crop brought to them in good shape.

Three new bales of Cotton were brought to town yesterday by Mr. Tom Ewing, Dennis Ballard and Tol Smothers. None of the gins were ready to run but the oil mill ginners made arrangements to steam up and all three bales were taken there. Mr. Ewing's bale and the Smothers bale were from Burleson county and the Ballard bale from Brazos. Part of the bales will be given tomorrow.

Upon recommendation of the board of examiners Miss Fannie McMorris of Bryan has been appointed a student from Brazos county to the Sam Houston normal institute at Huntsville.

Tom Roberts returned from Dallas yesterday. He has just recovered from a dangerous illness occasioned by an abscess behind the ear.

Capt. A. F. Wilson and H. G. Rhodes have returned from a fishing and hunting trip on the Llano river with friends from Hearne.

The ladies of the Presbyterian church will have a cake sale Saturday, Aug. 3, place to be designated later.

Miss Linnie Browning of Benchley and Miss Nancy Browning of Athens spent Sunday as the guests of Bryan friends.

Miss Nonie Adams went to Dallas yesterday to attend the funeral of her cousin, Miss Leonora Maroney, daughter of Mr. and Mrs. James Maroney.

RUSSIA IS MONARCH.

Gradually Pushing Her Plans With-out Much Molestation.

JAPAN IS DISTURBED

It Seems That Russia Will Force Japan to Fight or to Let the Country Have a Free Hand in the Korean Affairs.

New York, July 29.—A special to The Tribune from Washington says: The government at Washington has come into possession of important news upon the sweeping developments occurring in the far east, as evidenced by one of its most trusted agents at present in China—an official who has spent much of the last 20 years there and in Korea and Japan. From this confidential communication The Tribune is enabled to make the following verbatim extracts:

Korea is the storm center if there is one, just now. The government of the emperor is a greedy, cruel and rapacious personal despotism and Russia is playing with the territory as a cat does with a mouse. She is perfecting her railway system in Siberia and Manchuria, and when she is ready she will come down through the Korean peninsula and plant her military and commercial establishments in the magnificent harbor of Masanphoh, in the south-east, whence can she descend upon Japan and which lies between the British interests in the north and their base at Hong Kong. To this end Russia seeks to control, or build and control, a railway from the northwestern frontier of Korea, near Mukden, to Masanphoh, but her agreement with Japan forbids her seeking such concessions in Korea, and therefore France steps in to her aid.

Efforts to displace J. McLeavy Brown, though made on a side issue to which he lent himself with absurd stupidity, was for the purpose of getting the pledge of the customs revenue for the loan. For the purpose of protecting her credit, Korea placed her customs revenue under the control of a foreigner as commissioner, and without his consent it cannot be pledged. Mr. Brown was dismissed for refusing to vacate some public offices but under pressure, was reinstated and the matter is in abeyance for the moment. Russia views the opposition with tolerant amusement and will win.

When the real purport of the McLeavy Brown incident became evident Japan was much alarmed and with good reason. Her finances cannot stand the stress of her armaments, and the cabinet has gone to pieces on the financial issue. A feeble stop-gap ministry can hardly be said to be in power and the country is drifting, passively into war with Russia, like a rudderless junk. Whatever temporary success Japan may have if she goes to war with Russia, it will insure her having to fight for her very existence in her own islands, and that before many years Great Britain could not stop Russia if she would, and if she could, she would not, for she does not care to accelerate the Russian advance.

The Russians hold the great port of New Chwang, without there being anywhere visible or in effect a single shred or pretense of Chinese authority, and an official tells me he was astonished to see armed Russian soldiers quietly allowed to overhaul the British steamer on board of which he was traveling New Chwang, mind you, was an open treaty port.

Germany is as powerless as Great Britain, and, bearing in mind her eastern frontier open to Russia, and, in fact, her position between the French hammer and Russian anvil, she takes no initiative at Pekin where Russia is concerned. France's fear and hatred of Germany are strong motives for the solidarity of the Russian-French policy.

Dr. Cline Transferred.
New Orleans, July 29.—The announcement is made here that Dr. I. M. Cline of Galveston would succeed Colonel Blythe as local weather fore-caster. Dr. Cline is known in this city and his work in Texas has been followed with interest. He is expected to take charge of the office on Aug. 1. Colonel Blythe has been transferred to Indianapolis, Ind.

Appointment of Normal Pupils.
Austin, July 29.—At a meeting of the state board of education here a resolution was passed authorizing each senator and representative of the legislature to appoint two scholars for the Sam Houston normal and two for Dental normal, nine each by members of the board of education and six by the lieutenant governor.

Galveston Tax Rolls.
Austin, July 29.—The comptroller's department has received the tax rolls of Galveston county for 1901, which shows a total valuation of assessed property is \$28,314,970, which is a decrease of only \$2,683,620. This decrease caused great surprise in view of the fact that nearly \$15,000,000 worth of property was destroyed in the Galveston storm.

Todd's Body Shipped.
Austin, July 29.—The body of Robert E. Todd, who committed suicide here, has been shipped to relatives at Mason, Tex. Todd swallowed an overdose of morphine. He was a well known drummer.

HIS HOUSE DYNAMITED.

Residence of a Bachelor Blown up and He Was Hurt.

Waco, Tex., July 29.—The residence of William W. Wilson was blown up with dynamite and the occupant severely hurt early Sunday morning. Mr. Wilson is a bachelor and lives alone. His residence is 1½ miles south of Robinson, McLennan county and 8½ miles south of Waco. The dynamite was placed under the corner of the house where Mr. Wilson usually sleeps. To get a better breeze he went to the opposite side of the house Saturday night and thereby saved his life.

Deputy Sheriff Read went to the scene of the outrage and expects to make an arrest. The officers say the corner of the house was torn off and a hole blown into the earth. Mr. Wilson lay stunned for several hours. The explosion was terrific.

County Officers at Out.
Nacogdoches, Tex., July 29.—A local difference of a serious character exists here among certain officials, all of whom have friends or sympathizers. It is of a personal character, but has arisen from official frictions and clashes. It has become quite a serious matter to the general public on account of dreaded differences it seems to portend. General A. P. Wozencraft of the Texas volunteer guard, with two of his aids, arrived here Sunday to investigate and quiet the trouble. They were sent at the request of the county judge, by Governor Sayers.

Born in 1799.
Austin, July 29.—There died Saturday near Eanes schoolhouse in this county, a Mexican who claimed and is believed to have been born in the City of Mexico in 1799, or 1805 years ago. He came to Texas in 1816 and was for many years a soldier in the Mexican army and later settled near this place, where he has lived continuously on the same piece of property since 1852. His name was Raphael Martino.

Bear in the Cornfield.
Paris, Tex., July 29.—Mr. Page, a farmer, living on Visor Creek near where it empties into Saunders creek, while riding through his bottom farm came across a big black bear in his corn field. He first came across a pile of corn and then discovered the bear not 30 feet from him.

Victoria's First Bale.
Victoria, Tex., July 29.—Victoria's first bale of new cotton was turned out Saturday by the Goldman ginners and classed as strict middling and weighed about 500 pounds.

Killed by a Trolley Car.
Austin, July 29.—The 4-year old son of C. John, a merchant, was run over and instantly killed here by an electric car.

AN OLD MEDAL.
One Made in 1670 Plowed up by an Oklahoma Farmer.

Shawnee, O. T., July 29.—A gentleman living a few miles east of Shawnee exhibited an old relic here Sunday. While plowing the other day he unearthed an old medal, made of copper, which measures 2¾ inches in diameter. The medal bears the date of A. D. 1670, and the lettering seems to have been done by a process of pounding, but is very plain. On one side can be seen: "England scarce. Labor plenty. Labor reckoned by the acre. America the reverse." On the other is the date of the medal, and other figures and lettering. Robert Townsend a city police officer, paid a fancy price for the old relic, and prizes it very highly.

Eggs Hatched by Heat.
Springfield, Mo., July 28.—The Crystalized Egg factory of this city handles about 50,000 dozen eggs a day, all of which are candled before entering the factory. About three wagon loads of eggs are rejected each day and hauled to the city limits, where they are dumped. A man living near the dump has collected enough chickens hatched by the weather from eggs thus thrown away to stock a chicken farm. Every day for a month or more he has been carrying a number of chickens home from the dump, where they had been hatched by the unprecedented heat.

Negro's Narrow Escape.
Cambridge, O., July 29.—One man is dead, one dying, another probably fatally shot and a fourth man with the back of his head crushed in, with the threatened lynching of a negro, is the result of a free for all fight at King's mines Sunday, a short distance from Black Top mine, where a riot between Hungarian and Slavish miners occurred Saturday. The negro was warned to leave the region, but refused. He attacked one man and this brought on a fight, which resulted as above. Officers only prevented a lynching.

The Convention Closed.
Chicago, July 29.—With a consecration service the Baptist Young People's Union brought the convention of their society to a close at the Coliseum Sunday night before one of the largest audiences of the four days' gatherings. Rev. William H. Geistweil, acting editor of The Union, the official organ of the society, led the services, being preceded by Dr. James B. Cranfill of Texas, who delivered the consecration address.

Meade Breaks the Record.
San Francisco, July 29.—The transport Meade arrived Sunday from Manila in the record breaking time of 21 days. The Meade brought 135 men of the light field battery; 21 hospital corps men, casuals, 35 insane, 369 convalescents one time-expired prisoner, 202 discharged soldiers from Manila and 103 bodies, including that of Helen D. Cochran, a contract nurse, who died in Manila.

Special satisfaction is expressed by the ladies in the commodious dressing rooms found in our Pullmans, and all our guests appreciate the freedom from carving, superfluous decorations and stuffy plushes, which is a distinctive and welcome feature of the most up-to-date Pullman Sleepers—the kind we have two of each day, run through without change. Our Day Coaches are also of the latest design, elegant in their dignified simplicity, with very comfortable high-back seats, the equal of any similar equipment. No other line operates Cafe Cars from Texas, and no other line runs through trains to Colorado (and our time is far and away the shortest, too); no other line has Observation Sleepers to the Northwest, no other line makes a specialty of Colorado Tourist travel. THE TWO BIG PRIZES

They Fall to James R. Wood and Miss Mattie M. Boals.

WORTH \$40,000 EACH

They Will Undoubtedly Take Quarter Sections Adjoining the Townsite of Lawton—Some of the Lucky Ones.

El Reno, O. T., July 29.—The placing of envelopes in wheels proved slow work and the actual drawing was delayed over two hours this morning. The first envelope taken from the wheels contained the name of James R. Wood of Weatherford, O. T., who had registered for homestead in the Lawton district. Miss Mattie M. Boals of Wichita, Kans., drew number two also in the Lawton district. Without doubt Mr. Wood and Miss Boals, who thus have the right to make the first filings will select two quarter sections adjoining the Lawton townsite district which are believed to be worth \$40,000 each. When Colonel Dyer the commissioner, announced the woman's age as 23 and her height the same as that of Wood, 20,000 persons shouted in chorus: "They must get married."

Number one, in El Reno district is Stephen A. Holcomb of Paul's Valley, I. T.; number two, Leonard Lamb, of Augusta, O. T.; number three, Frank Brown, of El Reno, and number four, was Calvin Churchill of Chichasha.

MANNER OF DRAWING.

Envelopes Placed in Receptacles and Drawn Out Before Public.

El Reno, O. T., July 29.—All was expectancy Sunday night among the thousands of homeseekers here over the grand lottery that began this morning. There are 13,000 claims to be distributed, and so each of the 165,865 persons who have registered during the past 15 days has about one chance in 13 of winning. While the great excitement of the "run" which has heretofore been a part of land openings in this part of the country is lacking, the last act in the throwing open to settlement of the Kiowa-Comanche reservation will not be without life and animation.

The drawing took place in the center of the city on a large platform in the open air. W. A. Richards, assistant commissioner of the general land office, who has had charge of the registration; D. P. Dyer, of St. Louis, former United States district attorney, and Frank Dale, ex-chief justice of Oklahoma, conducted the drawing.

The actual drawing was novel and interesting. On the platform was two oblong box wheels, each 15 feet in length, one to hold the names of the applicants for homesteads in the El Reno district and the other for those of the Lawton district. Into these wheels were placed envelopes containing the names of all the registered applicants. The envelopes were first brought to the platform in packages consecutively numbered. A corresponding series of numbers, upon slips, were placed in another receptacle from which they were drawn out at random. The package of envelopes bearing the first number drawn was the first to be placed in the drawing box and well distributed, when another number drawn and another package of envelopes distributed, and this course continued until all of the envelopes were placed in the box wheels, after which the wheels were revolved for a sufficient length of time to insure a thorough mixing of the envelopes.

In each wheel there are five apertures from which the envelopes were finally to be drawn. Ten men, one for each aperture, performed the actual drawing. The order in which it began was determined by lot. The first envelope drawn was No. 1, which was at once opened and the identification slip which it contained was given a corresponding number, and the name and residence which appears upon the slip was publicly announced. This course was pursued, numbering each envelope and its contents consecutively, until 25 numbers were drawn from one box, when an equal number was drawn from the other box in a similar manner.

After the names were drawn and announced they were recorded and a notice prepared to be mailed to the one whose name is drawn. The drawing will proceed in this manner until every envelope in the boxes is drawn out.

Only 1000 envelopes, 500 for each district, will be drawn today. After today the drawing will proceed with greater rapidity and it is expected that the last envelope will have been drawn by Thursday night. The lucky ones will be permitted to file their

claims in the order that their numbers have been drawn from the wheel. All applicants for homesteads have been permitted to inspect the land beforehand to select a claim in case he should be lucky enough to draw a number.

Three Persons Drowned.

Tacoma, July 29.—Earl Jenkins of Seattle, Miss Florence Nevins and Miss Anolia Cole of Puyallup, were drowned by the capsizing of a row boat on Spanaway lake. The bodies were recovered several hours after the accident.

FOUND HIS DAUGHTER.

George Edmunds Discovers His Child After Nine Years' Absence.

Willesbarre, Pa., July 29.—George T. Edmunds of Plymouth has located his daughter, Sadie, who nine years ago, then 18, disappeared from her home in Alpena, Mich. It was thought she had been drowned or murdered by a jealous lover. Two weeks after her disappearance her mother died from grief. One month later her sweetheart died from the same cause.

Her father was so affected that he left town and moved to Plymouth. There he started in business anew, but brooded over the mystery. Two weeks ago the daughter, while at Thousand Island, read in a Wilkesbarre paper of an accident to a man of her father's name. She employed a detective who investigated and acquainted the father of the daughter's whereabouts. A happy visit followed. The daughter at the time of her disappearance married a man now living in New Orleans, La. She is Mrs. Lawrence Brice.

BACK IN COLOMBIA.

Venezuelan Revolutionary General Making His Way to His Troops.

New York, July 29.—General Uribe is back in Colombia and is now believed to be making his way into the interior from the Venezuelan border. He sailed from New York on the Red Line steamer Caracas on June 15, reaching La Guayra June 23. He remained in La Guayra only a few hours and then took the steamer Merida for Caracas. From Caracas he sailed for Maracaibo, Venezuela, where he arrived June 27. He continued his journey on the steamer Mara, which took him to the other side of Lake Maracaibo.

Of the 30,000 who fought with Uribe in the revolution only two guerrilla bands are holding out against the government—one in the department of Tolima and the other on the Isthmus of Panama.

The Colombian government has been kept advised of Uribe's movements and it is doubtful if he will succeed in raising many followers before he is captured or driven out of the country.

Killed by a Ranchman.

Trinidad, Col., July 29.—Phil McWilliams, a ranchman living a few miles below town, shot and killed Salvador Parece and his son Charles Parece. In the fight that occurred at least a dozen or more shots were exchanged, the Pareces shooting McWilliams horse from under him. The shooting is the outcome of an old feud.

Boers in Cape Colony.

Cape Town, July 29.—The Boers are scattered throughout the upper districts of Cape Colony. Some are within a few miles of Indwe, others are around Jamestown and between Molteno and Burghersdorp. Several parties are close to Craddock.

Czar Getting Better.

Berlin, July 29.—The czar has been rapidly taking on flesh since his illness, though he is still very pale. His doctors have ordered him to take more exercise, and he has put in his bedroom a rowing machine, at which he sits for half an hour every morning.

Socha Must Hang.

Austin, July 29.—The governor has declined to interfere in the case of Juan Rocha, a Mexican, who murdered John Grimsinger at San Antonio. The petition was for commutation of sentence to life imprisonment. Rocha is to hang Aug. 2.

Empress Frederick Worse.

Cromberg, July 29.—As a result of the visit of Prof. Reuvers from Berlin, it is officially announced that the condition of Dowager Empress Frederick is not satisfactory.

Confederate Soldier Dead.

Natchez, Miss., July 29.—Captain Lyman G. Aldrich, a distinguished Confederate soldier and member of the executive board of Knights of Pythias, is dead of paralysis.

MANILA NOTES.

Major Allen Has Been Chosen Chief
of the Insular Constabulary.

Manila, July 29.—Major Henry Allen,
of the Forty-third volunteers, who was
sometime since appointed governor of
the Island of Leyte, has been chosen
chief insular constabulary and will pro-
ceed with the organization of that force.

Captain Spellman of the Forty-third
has been sentenced to two years in pris-
on for encouraging trading at closed
ports.

General Chaffee has issued an order
that troops shall wear coats buttoned
everywhere outside of the barracks. The
order dispenses with the use of flannel
shirts, which have heretofore been cus-
tomary outer garment. The officers are
ordered to wear khaki for all duty and
swords always when actively command-
ing. White or dress suits are permit-
ted on social occasions. Upon visiting
the posts unexpectedly General Chaffee
found an astonishing variety in uni-
forms and a great laxness regarding the
clothing of troops.

Two native policemen have been killed
in the suburbs of Cebu. Firing upon
the town continues. Provost Davis is
conducting an investigation.

Detectives employed in investigating
the Santa Cruz robbery have found no
definite clew, nor have they learned the
amount the thieves secured. It appears
that the sergeant of the guard was in-
toxicated and one sentry detailed to
guard the five entrances to the guard
house.

General Martin Delgado, governor of
the island of Panay, has asked for aid
in consequence of the ravages of the lo-
custs and rinderpest.

Spanish residents of Manila are urg-
ing the Philippine commission to tax
real property upon a basis of the income

Discussion of the Manila charter con-
tinues.

Investigation is proceeding in the case
of Lieutenant McCarthy of the Thirty-
fifth regiment because of the loss of
\$1000 of public money while being con-
veyed from Appari to Manila.

Decision on Woman's Rights.

Denver, July 29.—In the county court
here Judge Lindsay gave an opinion to
the effect that Judge Palmer erred in
enjoining the police department from
enforcing the city ordinance excluding
women from saloons. Judge Lindsay
held that it is not the constitutional
privilege of women to drink at public
bars and that the city ordinance prohib-
iting such drinking is no infringement
on their constitutional liberties. The
fine of \$20 and costs imposed by the
police court upon Daniel Cronin for keep-
ing a winery in violation of the city
ordinance was doubled.

Howell's Island Cut Away.

Liberty, Mo., July 29.—A few years
ago the Missouri river changed its main
channel from the Jackson county shore
to the Clay county side at Howell's is-
land, but left the island connected by a
large sandbar with the Jackson county
bank. Now the river has gone back to
its former bed and in doing so has al-
most cut away the entire island, instead
of going around. Howell's island is
three miles below Missouri City and
was one of the largest in the Missouri
river. It contained more than 1000
acres of rich corn land.

Reward for Bandit Doubled.

Havana, July 29.—The government
has offered a reward of \$1000 for the
capture, dead or alive, of Lino Lima, a
bandit, who has been operating in the
Matanzas and Havana provinces. There
had been for the last three months a
standing reward of \$500 for Lima's head.
Friday the bandit sent word to the au-
thorities that he would surrender \$500,
provided he were allowed to leave the
island. Upon receipt of this offer the
authorities doubled the reward and
sent urgent instructions to General Rod-
riguez of the rural guards to capture
Lima.

May Displace Kitchener.

London, July 29.—It is rumored here
that General Lytton will succeed
Kitchener as commander-in-chief of the
British forces in South Africa. General
Kitchener, it may be assumed, will not
be recalled until the end of the war. It
will be Lytton's task to be more pas-
sive and administrative than belligerent.
The man to whom is really confined
the task of solving the final problem is
Lord Milner and he is well aware of
the difficulty of the task that awaits
him on his return to South Africa.

Preparing to Stay.

London, July 29.—A Shanghai corre-
spondent of The Globe says: assurances
were given in the house of commons on
July 23 by Lord Cranborne, the under for-
eign secretary, that the French and
German troops, only temporarily here,
are refuted by the fact that the national-
ities were erecting massive permanent
barracks, which will take two years to
complete, indicating that many years
of occupation are contemplated.

Thrashing Engine Exploded.

Weatherford, O. T., July 29.—A tele-
phone message from Seger, a small
place 15 miles south, says a boiler be-
longing to thrashing crew, burst near
there killing three men and injuring
four more, two of them probably seri-
ously. The dead are: John W. Peters,
Alfred White, and Caleb Jones. The
explosion is said to have been caused by
failure of the engineer to supply suffi-
cient water.

Cannot Express Opinions.

Washington, July 29.—Secretary Long
has issued a general order that all per-
sons in the naval service are strictly en-
joined to refrain from any public state-
ment concerning the subject matter of
the court of inquiry, requested by Rear
Admiral W. S. Schley.

ATTEMPT TO ESCAPE.

Doomed Negro Killed After He Escaped
from His Cell.

Monticello, Fla., July 29.—Simon
Williams, condemned to death for the
murder of Deputy Sheriff Hawkins and
sentenced to hang Aug. 8, made a dash
for liberty Sunday afternoon. After a
desperate fight, in which Deputy Sher-
iff Kilpatrick was badly wounded, the
negro fled, but was shot to death.

Deputy Sheriff R. H. Kilpatrick, with
a trusty, had gone to the death cell to
give Williams his dinner. Williams,
who had recently removed the shackles
from his ankles with a cold chisel fur-
nished by unknown means, dashed out
upon the officer, seized his pistol and
ordered him to get into the cage. The
officer sprang upon the murderer and a
fight ensued, in which the officer was
shot. He fell down a stairway and ran
into the yard, where the deputy took
the pistol from the negro. Williams
ran to the gate of the stockade, but
could not get out. He then turned up-
on the deputy with a club, but was shot
in the chest. Williams, notwithstanding
his wounds, ran to another gate,
which was open and dashed into the
street. The deputy followed, shooting.
After a chase of 100 yards Williams fell
dead. Officer Kilpatrick's wound is in
the groin. His condition is critical.

Tornado in North Dakota.

Fargo, July 29.—A heavy rain and
wind storm prevailed Sunday afternoon
over a good part of the state and the
greatest damage is reported at Tappen
where it amounted to a tornado. A
church, a store and some dwellings and
barns were blown down and the North-
western Pacific depot unroofed. Crops in
the path of the storm were ruined.

Helping Corn in Nebraska.

Lincoln, July 29.—Reports from over
the state show that the rains that visit-
ed Nebraska Saturday night and Sunday
left the corn in many localities in bet-
ter condition than at first thought. The
fall of rain ranged from half an inch to
three inches. This, while not of much
help to the hay crop, will make good
fodder in all cornfields and in many
places will make from one-third to a
full crop of corn. In some localities,
however, there will be no corn.

Boys' Quarrel Terminates Seriously.

Memphis, July 29.—Edwin Blalack,
dead with a Winchester rifle ball in his
brain; M. F. Blalack, leg broken by a
bullet; Robert Wright, Sr., leg broken
by a bullet and Robert Wright, Jr., a
fugitive from justice, is the result of a
desperate duel with Winchester rifles
which occurred Sunday about dusk on
Norris avenue, near Forrest Hill cem-
etery. The tragedy grew out of a dis-
pute between Robert Wright, Jr., and
Edwin Blalack. The fathers backed
the boys up and the two families lined
up with rifles on neutral ground.

Kansas Drouth Broken.

Atchison, July 29.—The drouth in
northern Kansas which has lasted with-
out interruption since April 15 was
broken Saturday night. The Missouri
Pacific railway has received reports
from all the stations which extend 300
miles westward from the Missouri river
and northward into Nebraska and all
except two or three report a downpour
of from a fourth of an inch to two
inches. The rain lasted in most places
for three or four hours.

Rich Find of Copper.

Guthrie, O. T., July 29.—A report
from the copper district in northwest
Beaver county, tells of the discovery in
Long's canyon of a vein of very rich
copper, 18 inches thick, and of other
finds of less richness. The smelter at
Canizo started Thursday and the mines
will all be worked now, as heretofore it
was necessary to freight all ore 115
miles to railway and then ship to the
smelters.

Sack of Silver Missing.

Chicago, July 29.—A sack of 1000 sil-
ver dollars has mysteriously disappeared
from the Commercial National bank,
and although several detectives have
been put on the case their efforts so far
have been futile. The package, which
weighed about 60 pounds, was left out-
side of the vault by mistake when the
bank closed Saturday night and since
then no trace of it can be found.

Death of an Inventor.

Louisville, July 29.—W. H. Johnson,
who is said to have invented the switch-
board used in an improved form by the
Western Union Telegraph company
while he was employed in the manu-
facturing department of that company
in Cleveland in 1855, died here of apoplexy.

Woman's Eyes Burned Out.

Muncie, Ind., July 29.—Peter Tillbury
an iron worker, threw carbolic acid into
the face of Mrs. Mary Torrey here,
burning out the woman's eyes and burn-
ing her neck, breast and arms fright-
fully. The man had pleaded with the
woman to marry him for years.

Burned to Death.

Louisville, July 29.—In the fire which
destroyed property of Badgley-Graham
Photographic Supply company, Max
Bellvitch, a cigarmaker, and Policeman
James Purden were burned to death in
an effort to rescue women and children
who occupied rooms above the store.

Rear Admiral Dead.

Washington, July 28.—Rear Admiral
John Irwin, retired, died at his resi-
dence Sunday night after an illness of
several months, due to a complication
of diseases. He was 69 years old. He
entered the naval academy in 1847 and
had a good war record.

Some Boers Captured.

Pretoria, July 29.—Colonel Garrett
has had a successful skirmish near Ver-
reigning. His force captured 25 Boers
and a number of cattle and wagons.

latives here, Mr. and Mrs. Middleton
returned to Madisonville Monday.
Rev. J. P. Skinner was called
from Alexander Sunday night to
perform the burial service of little
Clyde Pool, at the Wheat cemetery
Monday morning July 22nd.

Death entered the home of Mr.
and Mrs. Tom Poole, Sunday
morning, and claimed for its own,
their infant son Clyde. All that
loving hands could do, was done
for him, but the Lord took him to
that place where no sickness ever
comes. Clyde was a very interest-
ing and lovable child. He won
the love of all by his affectionate
and attractive ways. Dear parents
your Clyde was only lent to you
for awhile, but he has gone to live
with the angels; may God bind up
your broken hearts with his love,
and give you strength to stand this
great loss. May the blessings of
God be upon the bereaved parents
and bring them safely home at last.

The M. and P. Bank has sold a half interest in the Bryan Cotton Seed Oil Mill to parties at Waxahachie and other North Texas points. Mr. R. J. Patterson of Waxahachie, who is a member of the new company, and an experienced oil mill and gin man, arrived yesterday to take charge of the entire oil mill and mammoth ginnery. Both are now being put in thorough repair and most of the former employees will be retained by the new management. The mill and ginnery will be able to handle all the crop brought to them in good shape.

Three new bales of Cotton were brought to town yesterday by Mr. Tom Ewing, Dennis Ballard and Tol Smothers. None of the gins were ready to run but the oil mill ginnery made arrangements to steam up and all three bales were taken there. Mr. Ewing's bale and the Smothers bale were from Burleson county and the Ballard bale from Brazos. Part of the crop will be given tomorrow.

Hall's Drug Store

Has been moved to the old Kandy Kitchen stand where the public are invited to call and get what they want in the drug line. Polite attention to customers. Prescriptions accurately filled. The parlor of Dean Hearn, the optician, is in the store. Call and get the services of a reliable optician who is located in our midst, not traveling around the country in a way that he cannot be held responsible for what he does. 207

The game of base ball between Bryan and Race Hearne, colored teams, yesterday, resulted in a score of 5 to 1 in favor of Bryan. They will play again this afternoon and tomorrow.

BENSON SCHOOL HOUSE.

Benson School House, July 23.—Mr. A. N. Hall, who has been sick the past week, is improving very fast.

David, the little son of Mr. and Mrs. Lum Benson, is very sick. Born to Mr. and Mrs. W. F. Torry, Saturday, a fine girl.

Willie Burt, of Falls county is visiting relatives here.

A good many from here are attending the protracted meeting at Steep Hollow this week.

Mr. and Mrs. W. M. Holligan of Reliance were among the visitors here Sunday.

T. J. Sawyer and J. D. Jones have returned from Huntsville. They report crops good all the way from here until within a few miles of Huntsville.

The dry weather and boll weevil combined are causing the cotton to shed very rapidly.

Mr. and Mrs. Joe Cargill of Cartwheel Prairie were here Sunday.

The Houston Post of yesterday contained some splendid sketches of some of the prominent persons who attended the farmers congress. The sketches were made from life by Robt. L. Polk of Bryan, who is now a Post staff artist, and in the matter of likeness and even of expression, which is difficult in that class of work, the pictures were equal to the best we have ever seen. Mr. Polk's ability in this line amounts to genius and fame assuredly awaits him. His Bryan friends will unite with the Eagle in congratulating him.

A number of the Bryan merchants have overhauled their places of business while trade has been quiet and have them in elegant shape. Taken all around Bryan has clean and up-to-date business houses and large, fresh stocks of goods which makes the town a favorite trading point.

The ladies aid society of the Christian church will give an entertainment at the residence of Mrs. W. H. Nall Monday night, from 8 to 11, benefit of the Christian Church. Refreshments will be ice cream and cake. Everybody cordially invited. 202

The Eagle will be glad to have items for the society column reported any time during the week for use in the Sunday issue. It is intended to cover all items of social interest in this column, which has met with a good deal of favor.

Mr. Carter, the photographer, is equipped for making pictures suitable for The Eagle special edition. He has done a great deal of this class of work and makes outside or inside views of buildings with equal facility.

The first bale has come in and before long the fleecy staple will be rolling in from Brazos and adjoining counties at a lively rate. Three bales the first day shows at what rate the cotton may be expected to come.

Bear in mind the A. O. U. W. charges no initiation fee for a limited time. One hundred and fifty members in Vulcan lodge at Bryan. Come and be one of us. Give your application to any member. 207

WANTED—Twenty good mule teams on I. & G. N. grade near Wellborn. Will pay \$3.25 per day where parties furnish tools or \$3.00 per day where I furnish tools. Apply to Joe A. Owens, Wellborn, Tex. 206

Secretary Howell of the Central Texas fair association has notified all members of committees of their appointments and it is expected they will get to work soon on the various duties assigned them.

Dr. Pugh's patrons will please note that he has moved his office to Emmel's drug store, where he can be found during office hours. Office phone 180, residence phone 663. 224

Mrs. G. W. Mansel, Mrs. Edge, Walter Edge and Tom Wheelers returned yesterday from Bremond where they have been attending the Trinity Baptist Association.

The work of soliciting for the Eagle special edition, to appear in September, has begun and is meeting with encouragement that is gratifying the publishers.

RUSSIA IS MONARCH.

Gradually Pushing Her Plans Without Much Molestation.

JAPAN IS DISTURBED

It Seems That Russia Will Force Japan to Fight or to Let the Country Have a Free Hand in the Korean Affairs.

New York, July 29.—A special to The Tribune from Washington says: The government at Washington has come into possession of important news upon the sweeping developments occurring in the far east, as evidenced by one of its most trusted agents at present in China—an official who has spent much of the last 20 years there and in Korea and Japan. From this confidential communication The Tribune is enabled to make the following verbatim extracts:

Corea is the storm center if there is one, just now. The government of the emperor is a greedy, cruel and rapacious personal despotism and Russia is playing with the territory as a cat does with a mouse. She is perfecting her railway system in Siberia and Manchuria, and when she is ready she will come down through the Korean peninsula and plant her military and commercial establishments in the magnificent harbor of Masanphoh, in the south-east, whence can she descend upon Japan and which lies between the British interests in the north and their base at Hong Kong. To this end Russia seeks to control, or build and control, a railway from the northwestern frontier of Corea, near Mukden, to Masanphoh, but her agreement with Japan forbids her seeking such concessions in Corea, and therefore France steps in to her aid.

Efforts to displace J. McLeavy Brown, though made on a side issue to which he lent himself with absurd stupidity, was for the purpose of getting the pledge of the customs revenue for the loan. For the purpose of protecting her credit, Corea placed her customs revenue under the control of a foreigner as commissioner, and without his consent it cannot be pledged. Mr. Brown was dismissed for refusing to vacate some public offices but under pressure, was reinstated and the matter is in abeyance for the moment. Russia views the opposition with tolerant amusement and will win.

When the real purport of the McLeavy Brown incident became evident Japan was much alarmed and with good reason. Her finances cannot stand the stress of her armaments, and the cabinet has gone to pieces on the financial issue. A feeble stop-gap ministry can hardly be said to be in power and the country is drifting, passively into war with Russia, like a rudderless junk. Whatever temporary success Japan may have if she goes to war with Russia, it will insure her having to fight for her very existence in her own islands, and that before many years Great Britain could not stop Russia if she would, and if she could, she would not, for she does not care to accelerate the Russian advance.

The Russians hold the great port of New Chwang, without there being any where visible or in effect a single shred or pretense of Chinese authority, and an official tells me he was astonished to see armed Russian soldiers quietly allowed to overhaul the British steamer on board of which he was traveling New Chwang, mind you, was an open treaty port.

Germany is as powerless as Great Britain, and, bearing in mind her eastern frontier open to Russia, and, in fact, her position between the French hammer and Russian anvil, she takes no initiative at Pekin where Russia is concerned. France's fear and hatred of Germany are strong motives for the solidarity of the Russian-French policy.

Dr. Cline Transferred.

New Orleans, July 29.—The announcement is made here that Dr. I. M. Cline of Galveston would succeed Colonel Blythe as local weather forecaster. Dr. Cline is known in this city and his work in Texas has been followed with interest. He is expected to take charge of the office on Aug. 1. Colonel Blythe has been transferred to Indianapolis, Ind.

Appointment of Normal Pupils.

Austin, July 29.—At a meeting of the state board of education here a resolution was passed authorizing each senator and representative of the legislature to appoint two scholars for the Sam Houston normal and two for Dental normal, nine each by members of the board of education and six by the lieutenant governor.

Galveston Tax Rolls.

Austin, July 29.—The comptroller's department has received the tax rolls of Galveston county for 1901, which shows a total valuation of assessed property is \$28,314,970, which is a decrease of only \$2,683,620. This decrease caused great surprise in view of the fact that nearly \$15,000,000 worth of property was destroyed in the Galveston storm.

Todd's Body Shipped.

Austin, July 29.—The body of Robert E. Todd, who committed suicide here, has been shipped to relatives at Mason, Tex. Todd swallowed an overdose of morphine. He was a well known drummer.

HIS HOUSE DYNAMITED.

Residence of a Bachelor Blown up and He Was Hurt.

Waco, Tex., July 29.—The residence of William W. Wilson was blown up with dynamite and the occupant severely hurt early Sunday morning. Mr. Wilson is a bachelor and lives alone. His residence is 1½ miles south of Robinson, McLennan county and 8½ miles south of Waco. The dynamite was placed under the corner of the house where Mr. Wilson usually sleeps. To get a better breeze he went to the opposite side of the house Saturday night and thereby saved his life.

Deputy Sheriff Read went to the scene of the outrage and expects to make an arrest. The officers say the corner of the house was torn off and a hole blown into the earth. Mr. Wilson lay stunned for several hours. The explosion was terrific.

County Officers at Outs.

Nacogdoches, Tex., July 29.—A local difference of a serious character exists here among certain officials, all of whom have friends or sympathizers. It is of a personal character, but has arisen from official frictions and clashes. It has become quiet a serious matter to the general public on account of dreaded differences it seems to portend. General A. P. Wozencraft of the Texas volunteer guard, with two of his aids, arrived here Sunday to investigate and quiet the trouble. They were sent at the request of the county judge, by Governor Sayers.

Born in 1796.

Austin, July 29.—There died Saturday near Eanes schoolhouse in this county, a Mexican who claimed and is believed to have been born in the City of Mexico in 1796, or 105 years ago. He came to Texas in 1816 and was for many years a soldier in the Mexican army and later settled near this place, where he has lived continuously on the same piece of property since 1852. His name was Raphael Martino.

Bear in the Cornfield.

Paris, Tex., July 29.—Mr. Page, a farmer, living on Visor Creek near where it empties into Saunders creek, while riding through his bottom farm came across a big black bear in his corn field. He first came across a pile of corn and then discovered the bear not 30 feet from him.

Victor's First Bale.

Victoria, Tex., July 29.—Victoria's first bale of new cotton was turned out Saturday by the Goldman ginners and classed as strict middling and weighed about 500 pounds.

Killed by a Trolley Car.

Austin, July 29.—The 4-year-old son of C. John, a merchant, was run over and instantly killed here by an electric car.

AN OLD MEDAL.

One Made in 1670 Plowed up by an Oklahoma Farmer.

Shawnee, O. T., July 29.—A gentleman living a few miles east of Shawnee exhibited an old relic here Sunday. While plowing the other day he unearthed an old medal, made of copper, which measures 2½ inches in diameter. The medal bears the date of A. D. 1670, and the lettering seems to have been done by a process of pounding, but is very plain. On one side can be seen: "England scarce. Labor plenty. Labor reckoned by the acre. America the reverse." On the other is the date of the medal, and other figures and lettering. Robert Townsend a city police officer, paid a fancy price for the old relic, and prizes it very highly.

Eggs Hatched by Heat.

Springfield, Mo., July 28.—The Crystalized Egg factory of this city handles about 50,000 dozen eggs a day, all of which are candled before entering the factory. About three wagon loads of eggs are rejected each day and hauled to the city limits, where they are dumped. A man living near the dump has collected enough chickens hatched by the weather from eggs thus thrown away to stock a chicken farm. Every day for a month or more he has been carrying a number of chickens home from the dump, where they had been hatched by the unprecedented heat.

Negro's Narrow Escape.

Cambridge, O., July 29.—One man is dead, one dying, another probably fatally shot and a fourth man with the back of his head crushed in, with the threatened lynching of a negro, is the result of a free for all fight at King's mines Sunday, a short distance from Black Top mine, where a riot between Hungarian and Slavish miners occurred Saturday. The negro was warned to leave the region, but refused. He attacked one man and this brought on a fight, which resulted as above. Officers only prevented a lynching.

The Convention Closed.

Chicago, July 29.—With a consecration service the Baptist Young People's Union brought the convention of their society to a close at the Coliseum Sunday night before one of the largest audiences of the four days' gatherings. Rev. William H. Geistwell, acting editor of The Union, the official organ of the society, led the services, being preceded by Dr. James B. Cranfill of Texas, who delivered the consecration address.

Meade Breaks the Record.

San Francisco, July 29.—The transport Meade arrived Sunday from Manila in the record breaking time of 21 days. The Meade brought 135 men of the light field battery; 21 hospital corps men, casuals, 35 insane, 369 convalescents one time-expired prisoner, 202 discharged soldiers from Manila and 103 bodies, including that of Helen D. Cochrane, a contract nurse, who died in Manila.

THOSE OBSERVATION SLEEPERS

run via "THE DENVER ROAD"

from Fort Worth to Colorado Springs every morning are among the handiest equipment of the Pullman Company. The large Observation Parlor, with spacious windows and movable easy chairs, etc., affords the advantages and comforts of a private car; while the table and service in the Cafe Car in all respects equal the fare of the best hotels and restaurants at corresponding prices. Special satisfaction is expressed by the ladies in the commodious dressing rooms found in our Pullmans, and all our guests appreciate the freedom from the confinement, superfluous decorations and stuffy plushes, which is a distinctive and welcome feature of the most up-to-date Pullman Sleepers—the kind we have two of each day, run through without change. Our Day Coaches are also of the latest design, elegant in their dignified simplicity, with very comfortable high-back seats, the equal of any similar equipment. No other line operates Cafe Cars from Texas, and no other line runs through trains to Colorado (and our time is far and away the shortest, too); no other line has Observation Sleepers to the Northwest, no other line makes a specialty of Colorado Tourist travel. It is a fact—You Don't Have to Apologize for Riding on THE DENVER ROAD.
